"If you're going to try, go all the way."

Summary

Currently I'm a Software Developer at a Shopify app development company called Pix Applications. I have been employed here since September 2019 working with primarily ReactJS on the front-end and Symfony on the back-end. I constantly find myself striving to tackle challenges head on, especially when they are related to learning new technologies.

Work Experience

Pix Applications

Victoria, British Columbia

SOFTWARE DEVELOPER

Sept. 2019 - Current

- Helped design and develop an interactive dashboard for our main application, Giftship, using ReactJS and Symfony
- Implemented custom development using Liquid, CSS, and JS for clients with varying feature requests
- Assisted with deploying an updated version of our apps that were translatable across numerous different languages
- Used Photoshop to develop mock-ups for our brand overhaul and new support website
